

Food for thought

coventrySM
returning people
to work, to play, to life

When it comes to networks, our recipe for success starts with provider engagement, access, quality, and compliance.

For more than 40 years, Coventry has been cooking up strong provider relationships.

Quality medical care starts with quality ingredients

- Accurate provider information
- Strong provider relationships
- Active communication

Coventry's network-focused experience and attention to quality are demonstrated with our ongoing monitoring and maintenance*

More than **454,000**
records reviewed

Approximately **8.5%**
of records updated

6% provider
term rate

Diners want choice when it comes to where and what they eat

Like any good restaurant guide, through continual network review we offer more locations and provider specialties

Largest directly contracted work comp and auto network

Custom network solutions with providers selected based on specific needs

4,200 hospitals and 1 million provider locations

Outcomes-based Network focused on performance and outcomes

When it comes to the perfect dining experience any restaurant owner knows it's all about their team

Ongoing engagement ensures the right provider for every injury type

Whether during recruitment, credentialing, on-boarding, or throughout the life of the claim, engagement with our providers is the key ingredient to our success.

Safety is always front of mind in workers' comp like in the food service industry

Network compliance requires strong relationships with state agencies

Just like cooking, it requires close monitoring:

- State medical boards
- Physician Practice Acts
- Pharmacy boards
- State regulatory agencies and rules
